

**Verizon New England Inc.
d/b/a Verizon New Hampshire**

State of New Hampshire

Docket No. DT 07-011

Respondent: Stephen E. Smith
Title: Vice President – Business
Development

REQUEST: NECTA/Comcast, Group 5, Set #1

DATED: May 4, 2007

ITEM: NECTA G5
1-89 Please explain whether and how FairPoint will be provided with records maintained by Verizon regarding pole and conduit attachment licenses for specific locations in New Hampshire. Identify the records to be provided, the number of years' worth of records and the form of the records to be provided (e.g., maps, plats, paper, electronic, GIS).

REPLY: Verizon will provide all pole attachment and conduit occupancy licenses and all supporting documentation for New Hampshire to FairPoint at the time of the close. The licenses and supporting documentation are paper records. Supporting documentation may include letters issued to and/or received from licensees during the licensing process as well as all the forms and checklists used during the licensing process. The number of years' worth of licenses is not tracked in the normal course of business and thus is not available. All billing information pertaining to New Hampshire pole attachment and conduit occupancy licenses will be provided to FairPoint after the close as part of the transition services. In addition to paper copies of all New Hampshire licensees' bills, Verizon will provide to FairPoint after the close as part of the transition services an extract from the billing system listing all customer billing information such as customer name, billing address, number of pole attachments, full and/or partial duct footages, location (municipality), license numbers and billing amount.
